Mani Chandra

FrontEnd Developer

Hyderabad, Telangana | 9515190881 | manichandra9151@gmail.com | LinkedIn | Github | Portfolio

Profile Summary

Frontend Developer specializing in **React.js** and **Next.js**, skilled in building dynamic, responsive, and scalable web interfaces, with practical exposure to backend development in the **MERN Stack**.

Experience

Stealth Startup **January 2025 – May 2025**

Frontend Developer Intern *Remote*

- Improved the AI Teammate creation workflow by streamlining user interactions and enhancing the UI, making it more intuitive and efficient for users.
- Engineered multiple sidekick components for AI Teammates, enhancing the overall user experience by providing contextual assistance and simplifying task flows.
- Worked in an Agile environment with daily stand-ups and sprint planning, ensuring timely delivery of frontend features.

Projects

NoteApp | GitHub | View | *React.js, Redux, Firebase, Tailwind CSS* **November 2024**

- Developed a robust note management application using **React** and **Redux** to allow users to efficiently create, update, delete, and pin notes, providing an organized and **customizable user experience**.
- Enhanced accessibility by implementing a **search** functionality that enables users to quickly locate specific notes, improving **productivity** and user satisfaction
- Integrated **Firebase** for real-time data storage and retrieval, supporting **Google authentication** and **email/password sign-in**, which bolstered security, streamlined user login, and enriched data consistency.

Wristly | GitHub | View | *React.js, Redux Toolkit, Tailwind CSS* **August 2024**

- Built Wristly, an e-commerce platform specializing in wristwatches, using **React** and **Redux Toolkit** for efficient state management and a streamlined user experience.
- Implemented **wishlist** and **cart management**, including adding items, adjusting quantities, and viewing product details, alongside **search** and **filter** features for better product discoverability.
- Leveraged **Redux Toolkit** for global state management, ensuring smooth data flow and providing a responsive user experience.

Job Portal | GitHub | View | *Node.js, Express.js, EJS, MongoDB, Tailwind CSS* **April 2024**

- Developed a robust job portal with functionalities like job search and **application management** for job seekers and recruiters.
- Built with **Node.js** and **Express.js**, following the **MVC architecture** for a structured and scalable design.
- Enabled role-based dashboards for recruiters with exclusive access to manage job listings and applications, incorporating **authentication** and **authorization** to ensure proper access control.

Technical Skills

Programming Languages: Java, HTML/CSS, JavaScript
Databases: MongoDB
Developer Tools: Git, GitHub, Postman, VS Code
Frameworks & Libraries: React.js, Next.js, Redux Toolkit, Node.js, Express.js, Tailwind CSS
Additional Skills: Data Structures and Algorithms (DSA), Object-Oriented Programming (OOP)
Soft Skills: Communication, Teamwork, Collaboration, Problem-Solving, Quick Adaptability

Education

Cmr College of Engineering and Technology (CGPA: 7.98/10) **2020 – 2024**

Bachelor of Technology in Computer Science and Engineering *Hyderabad, Telangana*

Trainings

Coding Ninjas **Jan 2024 – Nov 2024**

Full Stack Web Development

- **Frontend** | **Backend** | **Data Structure**

Achievements

- Achieved a **5-star badge** on **HackerRank** for expertise for Java Data Structures and Algorithms.
- Completed over **200 problems** related to Data Structures and Algorithms in Java on **Leetcode**.
